

History Recaptured

The Chatham Sports Hall of Fame is very pleased to announce the availability of close to 200 DVD's depicting various sporting events from 1983 to 2003.

Background – Chatham Cogeco TV was going digital in their production and was divesting themselves of the numerous Super VHS tapes in their possession. Peter Martin generously offered the CSHoF the entire library of sporting events and the equipment needed to convert them to useable DVD's.

With the help of student grants we have been able to capture all of those memorable moments and saved them from a destiny of the landfill.

We now offer to loan them to you to relive those great games with valued team mates, to watch your children compete with the vigour you remember from the stands and to lovingly watch your grandchildren as they learned to skate or throw or run and witness their development.

To access these magic moments simply contact Mike Murphy at (519) 352-8698 for further information.
